# RAVI RAJYAGURU

## Full Stack Web Developer

## ABOUT ME

With an experience of over 7+ years as a fullstack developer,
I have successfully delivered many projects in different service and product base sectors, With experience in domains like manufacturing, events, pharma, sports, e-commerce, travel , booking, consultancy and many more.
I am having experience, starting from project understanding, planning, Design , deployment and Delivery. As a full-stack developer by nature, I always believe in logic not in syntax ( being a RAM, not a hard disk). Because of experience in multiple front-ends, backend languages.Hands on experience multiple servers technologies.I can choose which language, database and  server will be best suitable for a product along with the cost, time, and future expansion.

## PASSION

Travel, Learn New Everyday, Work From Hills
